## Analysis of Proposed Tier II and Tier III General Service Incandescent Lamp Energy Savings

Prepared by: Peter Ostendorp, Chris Calwell (Ecos Consulting)

Prepared for: Gary Flamm (California Energy Commission)

December 6, 2005

## Present Value of Savings for General Service Soft White and Frosted/Clear Incandescent Lamps

|        | Design<br>Life<br>(years) | Annual Unit<br>Energy Savings<br>(kWh) | Energy Cost<br>Savings (\$) | Annual<br>Sales<br>(million<br>units) |     | Incremental Cost of Improvement | Reduced Cost<br>Over the Design<br>Life of the<br>Appliance (\$) |
|--------|---------------------------|--|-----------------------------|---------------------------------------|-----|---------------------------------|--|
| Tier 1 | 1.1                       | 1.07                                   | \$0.12                      | 74                                    | 79  | \$0.06                          | \$0.08   |
| Tier 2 | 1.1                       | 4.2                                    | \$0.48                      | 68                                    | 284 | \$0.16                          | \$0.37   |
| Tier 3 | 1.1                       | 4.3                                    | \$0.49                      | 74                                    | 315 | \$0.16                          | \$0.38   |

## Simple Payback for General Service Soft White and Frosted/Clear Incandescent Lamps

| Proposed |        |     | Annual Unit<br>Energy Cost<br>Savings (\$)<br>@ \$.115/kWh | Design<br>Life<br>(years) | Simple Payback<br>Period (years) |
|----------|--------|-----|--|---------------------------|----------------------------------|
| Tier 1   | \$0.06 | 1.1 | \$0.12   | 1.1                       | 0.5                              |
| Tier 2   | \$0.16 | 4.2 | \$0.48   | 1.1                       | 0.3                              |
| Tier 3   | \$0.16 | 4.3 | \$0.49   | 1.1                       | 0.3                              |

## Present Value of Savings for General Service Enhanced Spectrum Incandescent Lamps

|            |         |            | Achievable |          |                  |          |             |               | Statewide  |
|------------|---------|------------|------------|----------|------------------|----------|-------------|---------------|------------|
|            |         |            | Power      | Energy   |                  |          | Incremental |               | First-Year |
| Equivalent |         |            | Reduction  | Savings  | Cost of Energy   | Assumed  | Cost to     | Lifetime      | Energy     |
